## *Brevillier* URBAN & SACHS

**Brevillier-Urban with its headquarters today in Hirm is an Austrian company with a long tradition. The beginnings go back as far as the year 1800, when a Mr. Ignaz Urban founded a forge in Vienna. Then in 1823, Carl Wilhelm von Brevillier started up a factory making nuts, bolts and screws. The Zeus Works, a pencil factory in Graz, took over both enterprises in 1925 and so the Brevillier-Urban Schreibwarenfabrik was born.**

After the chaos of the Second World War, the range of products steadily grew – coloured pencils and sometimes even cosmetic pencils were produced in the works in Graz-Gösting. The creation of the JOLLY brand in 1965 was a further milestone in the history of the company. Most Austrians have grown up with writing products bearing the brand name JOLLY. Even today, production is still in Austria and this fact plus the strict quality controls and the special manufacturing processes ensure the first-class quality of JOLLY products. You can find out more about Brevillier-Urban if you visit the website: [www.brevillier-urban.com](http://www.brevillier-urban.com)

**1965 was the year of birth of the „JOLLY“ brand. JOLLY products have been a synonym for painting, drawing and writing articles for generations. JOLLY is the brand which makes you smile. Which one of us hasn't stood mouth agape at some time in front of the 36 colour box of pencils? As a child, when we all wished for this box (and seldom got it) – as an adult, when we wished to be a child once again.**

The production in Austria is a guarantee for high quality and reliability. Jolly offers products that put a smile on the faces of little ones and grown ups alike – nowadays just as it did in the old days. Check out our website for children – [www.jolly.at](http://www.jolly.at) – where budding artists have lots of fun with Jolly and his friends. Come on in and take a look!

**BIBA – to challenge and encourage children to be creative – that's the aspiration of the BIBA range.**

BIBA products are designed to stimulate creative impulses and provide children with the right tools to turn them into reality. We have chosen the “Biba” as the mascot for our children's range as it represents not only the fun of drawing but also promises a surprising new experience in drawing and colouring activities, making the BIBA product range unique!

Using CRETACOLOR technology, our products comply with the highest Austrian quality standards. It goes without saying that all our products are non-toxic. You can also discover the world of BIBA on the internet. Just log onto [www.bibabunt.com](http://www.bibabunt.com)
